July 20TH
6:00 - 7:00 PM**

Rattlesnakes of California

See astonishing photos of snakes and learn how to distinguish rattlesnakes from the many harmless snakes of the region.

Todd Battey is involved in citizen science projects, including reptile and amphibian surveys coordinated through the North American Field Herping Association and bird counts through the Audubon Society. He has also created smart phone apps for California Rattlesnakes in addition to Southern California Reptiles and Amphibians.
